WORK EXPERIENCE

Radical Now Lab

08/2025 – 03/2026

Software Engineer Intern

- Engineered responsive frontend applications using React.js & Next.js, improving page load performance by ~20%
- Designed reusable UI components, reducing development time by ~15%
- Integrated REST APIs using Node.js & Express, ensuring seamless data flow across modules
- Applied JWT authentication and RBAC to secure user access across multiple roles
- Strengthened application security by implementing protected routes and validation
- Optimized UI and API performance, reducing response time and improving user experience
- Collaborated using Git in Agile sprints, contributing to faster feature delivery

eTech Prowess

02/2025 – 05/2025

Web Technologies Intern

- Built responsive web pages using HTML, CSS, and JavaScript, improving cross-device compatibility
- Created interactive UI features using ES6, enhancing user engagement
- Debugged and resolved UI issues, improving application stability
- Completed multiple mini-projects, strengthening real-world development skills

PROJECTS

Doctor Appointment Booking Website , Live Demo: [Live Demo: https://dr-chaitra.vercel.app/](https://dr-chaitra.vercel.app/)

- Built a responsive booking platform using Next.js, improving mobile usability by ~25%
- Optimized UI for faster load times and smooth navigation
- Deployed on Vercel with performance-focused configurations
